

VSI 01/2021

The improved follow up of our Curil™ T2 is available now

Our Curil™ T has a follow-up now! The new non-curing Curil™ T2 is not only easier to apply due to its chemical structure, it is also completely solvent-free. Due to the absence of solvents it does not require any airing time and offers twice as much sealing gap capacity as its previous version.

As Curil™ T are no longer in the range, orders are automatically switched to the new Curil™ T2, this means you will get the new product directly. For further questions and information, please contact your Elring sales partner.

Your advantages at a glance:

- Improved gap filling ability and higher sealing performance reserves
- New formula for a more user friendly application
- Solvent-free eliminating the need for hazardous substance labelling
- No airing time required
- No demixing and no tendency to set

Former Product	Former Item No.	New Product	New Item No.
Curil™ T 60 ml	911.580	Curil™ T2 70 ml	911.581
